### From the desk of 2nd International Vice President.....

Ally Dr. Ashwini Kr. Gupta

Dear Friends

Greetings! I welcome your entrance to the Alliance New Year with Love and joy and share a thought with You..

The slogan of our International President "YES I CAN WE CAN"

The word "YES" in any language is one of the most powerful words you can use.

It will instantaneously and naturally expand your energy field, and make you more receptive to what the Universe is offering you. When you say YES it vibrates your vocal cords and creates a powerful resonance in your body sending out positive vibrations into your world. Take a moment right now to discover what YES feels like when you just think this thought.

Say the word YES in your mind several times getting louder each time.

How does it make you feel?

Did you notice any energy shift inside?

Most people sense their energy is expanding and they feel more joyful and open to life.

Saying this magical word on your inner world is only a small portion of the power you can tap into.

I recommend saying YES out loud to the Universe if you really want to energetically open up your being and manifest whatever desire is trying to come your way.

"There is a life-affirming spark within you which constantly nudges you towards saying yes to life.

Create your YES list; a list of all the things you want to say YES to, and be prepared to be amazed.

So friends try it and sending you love and light,"

We care
