Dear Ally Members,

I would like to extend my hearty greetings on the eve of the Diwali, the festival of light . May God shower his choicest blessings, happiness and prosperity on all the members of Alliance community and on the entire mankind at large. In this message I would like to give my view point on two issues one is on Children's day and Secondly on prevailing situation of COVID19 in India.

Children's day was celebrated on 20th November each year before 1964, a date recognized by the United Nations. After the demise of our beloved PM Chacha Nehru, his birth date was declared as Children's day in India. The day is celebrated with gusto in schools and children institutions. Toys, sweets and gifts are given to children and an attempt to make it special for them is well-taken care of. But, as an individual, we must also look at the bigger picture. Is every child in the country able to avail his fundamental right to education, health. Are they free from child abuse? Has the menace of child labour is completely abolished? If not, the least we can do through our Alliance Clubs is "spread awareness programs" for the parents and ask to give them an environment where they can thrive. To take responsibility for imbibing in them values of respect and identity and letting them frame their own thoughts, not loaning them from any other. And primarily, not differentiating between a girl and a boy child. Our message to the youth must be to not yield to the peer pressure, to perform as per their ability and to not shy away from asking help with stress-causing psychological situations and issues. The new India is now open to opportunities, with respect to academics, ideas or growth. Our youth, driven by passion and enthusiasm is well supporting, the way they can be helped is by giving them an inclination and direction to pursue their interests. The aforementioned will revive the significance of children's day. Let us pledge to keep the motive intact and actionable to enjoy the day entitled to the youth and children in its truest sense. It might be only a date, 14th November, but let it sow a seed which will reap benefits in the coming years.

We are the part of greater human society. The mankind is suffering from various calamities, and natural havoc. Coming to current situation, the lockdown over but COVID19, still prevailing. In this festival season it is evident that many people have stopped taking precautions. Country is passing through the most crucial phase of the transmission of the covid19 disease. We cannot be slipshod and we need to be well equipped to fight this unknown enemy. I suggest that wearing masks, hand wash and maintaining social distance, will make the real variation. Through our Alliance clubs please take up public attentiveness programs in this regard, as we have to sail with this disease for some more long period. We wish peace, prosperity and wellbeing must prevail in entire world.

I believe that whatever little we give, will become huge amount to meet the big challenges of the society like small rain drops will become a big ocean.

Keep our Environment Clean and Save our Mother Earth.

It's Very Important to follow the rules of mask ,distancing & sanitizing. The message of Diwali is "There is not any empire of darkness but only the shortage of light" therefore on Diwali we illuminate Diya in our house to avoid darkness. But this year our motive should be service oriented. We know that the life of so many people are in trouble so as a dedicated member

Dear Fellow Ally's

Greetings and wish you all Happy Deepawali. In the span of a single Second our Lives can change, as energy moves at a pace more rapid than anything we can fathom. Every single thought or decision we take will deliberately direct the energetic motion of our lives. So it is important that our choices are not a product of instantaneous reactions because if we bear in mind that all we think and all we do will shape the existence we know, we can deliberately direct the energetic motion of our lives. The myriad choices you make from moment to moment, however inconsequential they may seem, represent your personal power, which sanctions you to transform the energetic tide of your existence with nothing more than your will. Because the Future belongs to those who prepare for it today. And Alliance is the perfect platform for it. So my dear Fellow Members as U always do Begin today. Act on your on your Vision. Do your Best. Take the initiative.... Don't wait for life to come to you. Everyday is your Day to Spread Wings and Soar and spread Alliance everywhere.
